ABOUT US

Melchiorri Atelier is dedicated to the creation of custom furniture and interior elements, developed through a precise dialogue between design, material, and craftsmanship.

Each project begins from a specific requirement — a space, a function, or a vision — and is translated into tailored pieces that combine aesthetic clarity with technical accuracy.

Working across marble, wood, metal, and other selected materials, the approach is flexible yet disciplined, ensuring that every element is coherent, refined, and built to last.

Rather than producing standard collections, Melchiorri Atelier focuses on made-to-measure solutions, where each piece is designed to belong to its context — quietly, precisely, and without compromise.

EDITIONS

We develop and produce refined design pieces, conceived as part of a coherent material and formal language. Each element is carefully designed and crafted, combining technical precision and artisanal expertise to create timeless objects defined by balance, detail, and material integrity.

LEAVES

An exquisite artistic sideboard, model Leaves, designed as a true sculptural masterpiece that blends fine craftsmanship with organic inspiration. The base is composed of hand-carved cherrywood branches, intricately shaped to form the elegant structure of an acacia tree canopy, evoking a sense of nature frozen in time.

The leaves, delicately crafted from Verde Alpi marble, add a striking contrast of texture and color, enhancing the naturalistic essence of the piece. The main structure consists of basket-style compartments, seamlessly integrated into the design, made of wood and finished with an artistic bronze coating, offering both aesthetic refinement and practical functionality.

Inside, the drawers are luxuriously lined with soft velvet, elevating the sensory experience and emphasizing the meticulous attention to detail. This unique sideboard is a fusion of art, design, and high-end craftsmanship, conceived to be a functional statement piece that brings timeless elegance and a touch of nature into any sophisticated interior.

BLADES

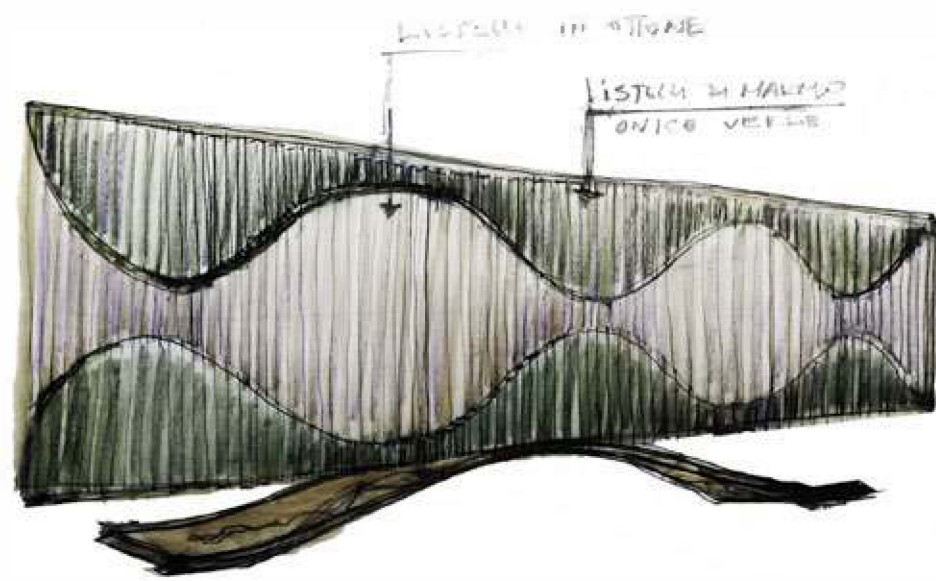

The Blades sideboard is a statement piece that merges refined materials with masterful craftsmanship. Its structure is crafted from high-gloss black lacquered wood with a polyester finish, creating a mirror-like reflective surface that enhances the depth and luminosity of the piece.

The base is made from curved and welded metal, meticulously finished with a polished bronze coating, adding both strength and elegance. The doors feature sleek bronze-edged panels, accentuated by polished bronze blades that extend along the surface, creating a dynamic interplay of light and shadow. Thin Portoro marble inserts further enrich the composition, introducing the natural beauty of this exquisite black stone with gold veining.

Inside, the matte black lacquered interior offers a sophisticated contrast, while the drawer bottoms are lined with velvet, ensuring a luxurious tactile experience. A harmonious balance of bold materials and meticulous detailing, the Blades sideboard is a perfect fusion of modern sophistication and timeless elegance.

MARYLEBONE_horizontal library

We designed and produced the Marylebone bookcase sideboard in 2018, envisioning it as a freestanding centerpiece thanks to its double-sided design. Crafted to be admired from all angles, this piece seamlessly combines functionality with sculptural elegance.

The base and interior are finished in matte lacquer, creating a refined contrast with the luxurious materials. The drawers, top, and side panels are made from exquisite Black and White marble, carefully selected for its striking veining and timeless appeal. To enhance its artistic character, the side panels are engraved with vertical lines, adding depth and uniqueness to the design.

Inside, the drawers are lined with velvet, elevating the tactile experience while maintaining a sense of understated luxury. The Marylebone bookcase sideboard is a masterful blend of craftsmanship, material sophistication, and artistic expression, conceived to function both as a storage solution and a sculptural statement piece.

MARYLEBONE_vertical library

The Marylebone Vertical Library is a striking piece designed to blend elegance with contemporary craftsmanship. It features a top and hand-engraved side panels crafted from exquisite Avocado marble, showcasing its rich texture and natural variations.

The shelves are made of polished bronzed steel, creating a refined contrast against the matte green lacquered base and vertical dividers. This carefully selected combination of materials enhances both the aesthetic appeal and structural integrity of the piece, making it a sophisticated addition to any interior.

With its bold yet balanced design, the Marylebone Vertical Library is not just a functional storage unit but a sculptural statement that embodies a perfect fusion of artistry and craftsmanship.

MARYLEBONE_sink cabinet

The Marylebone Sink Cabinet is a wall-mounted piece, designed to appear as if it is floating. It is supported by a sturdy metal bracket that is securely fixed to the wall, allowing the wooden cabinet structure to be seamlessly attached.

The interior is finished in matte lacquer, offering a refined contrast to the luxurious materials. The drawers are lined with velvet, adding a touch of elegance and softness. The doors, top, and hand-engraved side panels are crafted from either Portoro or Jolie Grey marble, both carefully selected for their distinctive veining and sophisticated appeal.

All metal components are coated in a polished bronze finish, enhancing the overall design with a warm, reflective quality. The Marylebone Sink Cabinet is a perfect balance of technical precision and aesthetic refinement, bringing a sense of luxury and craftsmanship to any space.

RIBBON

The Ribbon Light is an artistic pendant lamp crafted from pure hand-burnished brass, showcasing exceptional craftsmanship. It features two hand-hammered brass sheets, carefully paired to create a sculptural and dynamic form.

The lighting is provided by warm LED illumination, enhancing the rich texture and depth of the brass. The lamp is suspended by eight steel cables, ensuring a secure and visually light installation on the ceiling.

Designed for versatility, this piece can be custom-made to specific dimensions, allowing for seamless integration into different interior spaces while maintaining its artistic and sophisticated character.

MARYLEBONE_chair

The Marylebone chair is crafted from metal with an artistic bronze finish, offering a sophisticated and refined appearance. The seat and armrests are upholstered in luxurious velvet, providing both comfort and elegance.

On the backrest, two vertical strips of marble are seamlessly integrated, adding a striking contrast and elevating the overall design with a touch of natural stone. This chair combines modern metalwork with rich, tactile materials, creating a timeless piece that blends style and functionality.

MARYLEBONE_fireplace

The Marylebone fireplace is carved from a single block of Rosso Levanto marble, sourced from the eastern coast of Liguria. All the craftsmanship involved is manual, showcasing the artistry and skill behind the piece. The sides are meticulously fluted and engraved on a squared, linear surface, while the interior is fully rounded, also shaped by hand.

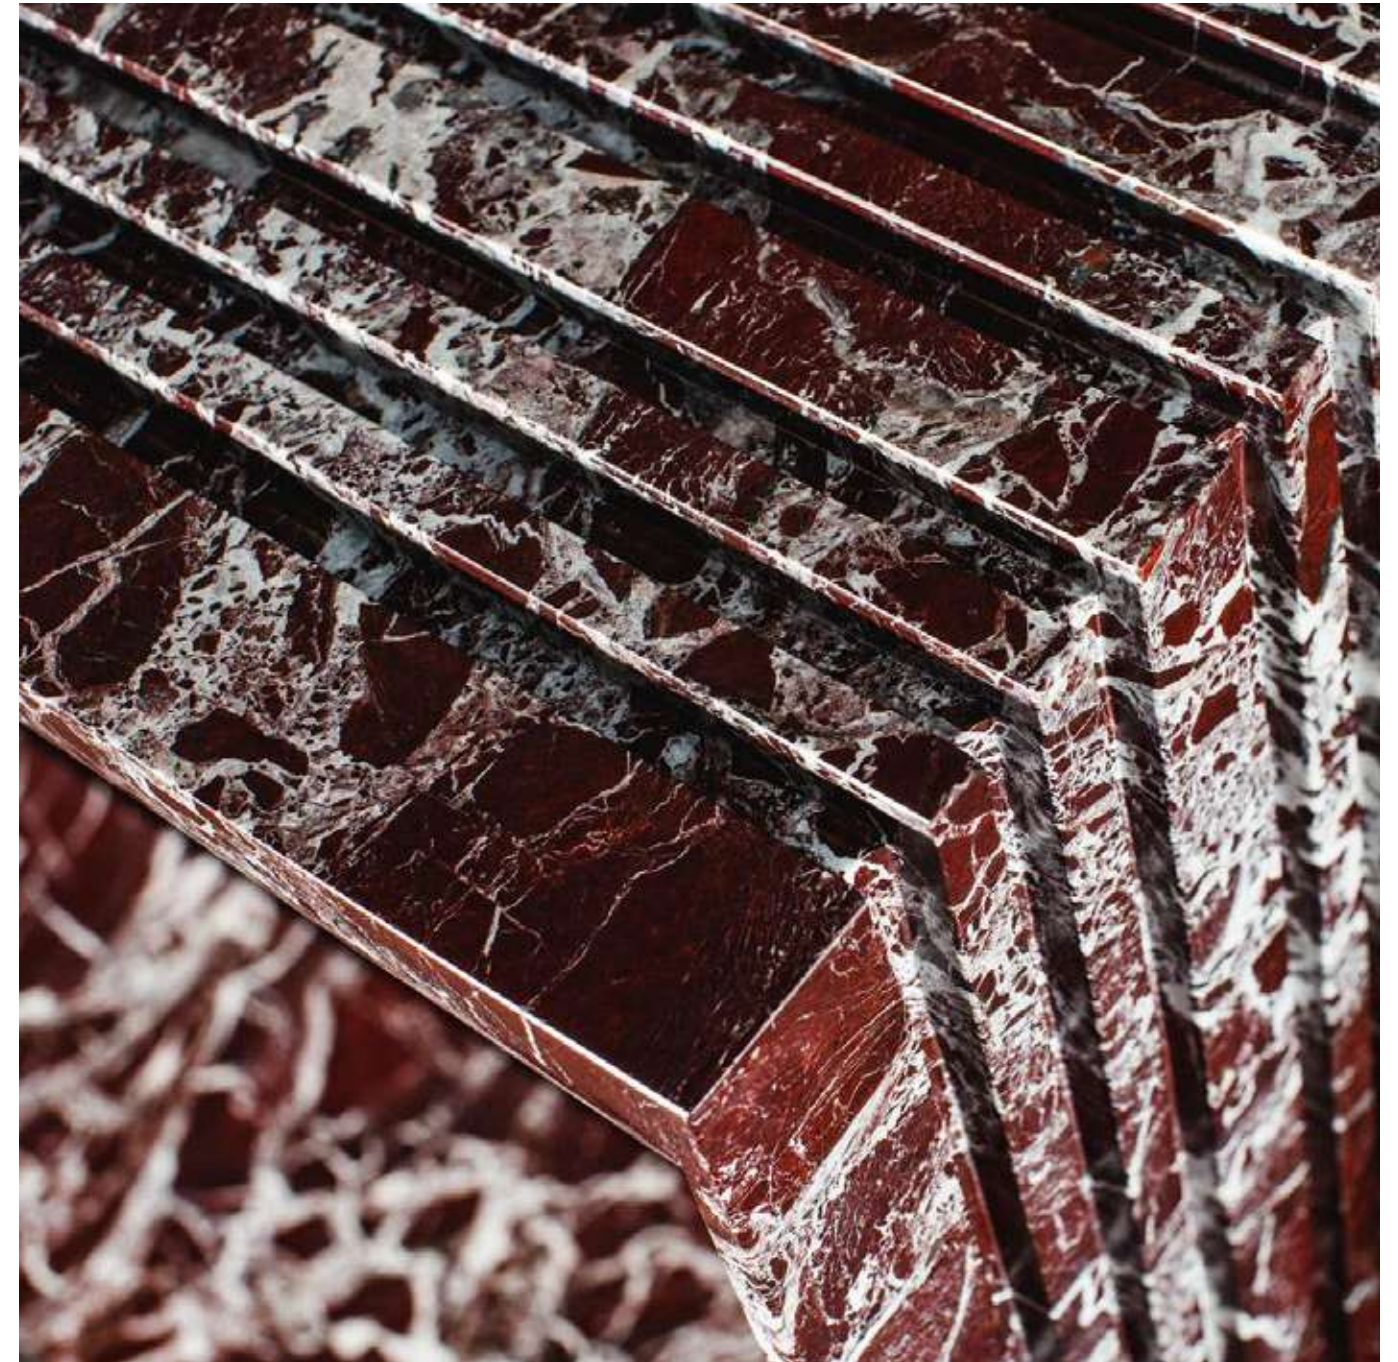

This unique piece has already been sold, but we offer the possibility to recreate it in any type of marble and size, allowing for complete customization to suit individual preferences and spaces.

MARYLEBONE_gym

The Marylebone Gym is an example of a bespoke creation, designed to meet a specific, high-level request in the world of custom luxury. All metal elements are finished in glossy gunmetal, offering a sophisticated and modern aesthetic.

The marble used is Rosso Levanto, chosen for its deep, rich color and timeless elegance. The weights can be tailored to the client's needs, ensuring a personalized and functional design. This barbell rack is part of a collection of other elements that complete a professional-grade gym setup.

Paris Bed

Development and production of three fully customized rooms, starting with the creation of detailed technical drawings for manufacturing. The process began with the construction of raw wooden wall panels, pre-assembled in our Italian workshop, featuring precision-cut openings for electrical outlets, integrated metal profiles, and upholstered leather panels.

We oversaw the entire logistics and delivery process, ensuring seamless coordination and on-site installation in Paris. Upon completion, the three rooms underwent a rigorous client quality control inspection to confirm that every detail met the highest standards of craftsmanship and precision.

Kitchen

Freestanding island kitchen meticulously crafted with a matte white lacquered wood structure and an inset beige terra cruda countertop, combining contemporary elegance with natural textures. The island serves as both a functional workspace and a design statement, seamlessly integrating into the surrounding environment.

The kitchen also features spacious storage cabinets made of natural oak, designed with thick, solid doors that enhance durability and visual impact. Integrated bottle shelves provide both practical storage and an aesthetic element, blending functionality with refined craftsmanship.

Designed for complete freestanding installation, this kitchen allows for flexible placement within the space, offering versatility without compromising on style or structural integrity. Every detail has been carefully considered to achieve a balance between modern minimalism and warm, organic materials, resulting in a sophisticated and timeless design.

Bathroom

A complete bathroom designed using Crema d'Orcia and Pietra Grey marble, characterized by clean, minimalist aesthetics and floating elements that create an open, airy feel. The design features flush, recessed doors with 45-degree angled cuts, enhancing the sleek, geometric lines of the space. The combination of these two luxurious marbles creates a harmonious contrast, with the warm tones of Crema d'Orcia balanced by the cool, dark hues of Pietra Grey.

Every element in the bathroom is carefully crafted to appear suspended, adding a sense of lightness and modern sophistication. The attention to detail, from the precise 45-degree cuts to the seamless integration of recessed doors, reflects a commitment to exceptional craftsmanship.

This bathroom can be fully customized and made to order, tailored to specific design requirements and preferences, allowing for a unique, personalized space that perfectly complements the surrounding environment.

Walk in Closet

A sophisticated walk-in wardrobe designed with a seamless combination of metal and thin marble elements, offering both practicality and elegance. The structure features adjustable side panels, allowing for customized placement of various components such as shelves, drawers, trouser racks, and more, providing a versatile storage solution tailored to individual needs.

The upper section is highlighted by shelves that are softly illuminated by warm light, integrated underneath the surfaces to provide gentle, ambient lighting that enhances visibility and allows for a clear view of all garments within the wardrobe. This thoughtful lighting design not only adds functionality but also elevates the overall aesthetic of the space.

A central island, equipped with sleek drawers, adds additional storage space while serving as a focal point in the design. The overall composition balances modern metal elements with luxurious marble accents, creating a refined and practical wardrobe that offers both beauty and efficiency.
